EDUCATION

William & Mary | Bachelor of Data Science | May 2026

- GPA: 3.71
- Honors:
 - Dean's List – Spring '23, Fall '24, Spring '25, Fall '25
- Relevant Coursework:
 - Data Structures, Applied Machine Learning, Discrete Structures, Algorithms, Databases, Data Visualization, Automations and Workflows, Probability Statistics, Problem-Solving with Gen AI

RELEVANT EXPERIENCE

Research Assistant - 2025 CCI Experimental Learning Program

March 2025 – Present

- Evaluated the performance of LLMs on malware detection and code generation.
- Optimized code pipelines for dataset generation, processing, and analysis.
- Created and developed machine learning models for malware detection.

Prop Librarian - William and Mary Theater Department

November 2023 – Present

- Managed inventory across multiple spaces to ensure prop availability for all productions.
- Architected an organizational system to simplify prop retrieval and improve workflow.

Demographics Survey Visualizer – Gamma Psi Chapter of Phi Sigma Pi

November 2024 – December 2025

- Cleaned and synthesized raw survey data using Power BI to generate a multi-page dashboard.
- Presented demographic survey result visualizations to chapter.

PROJECT EXPERIENCE

Android Malware Classification Pipeline

March 2025 – Present

- Developed an automated ML pipeline in Python to classify 5,000 Android APKs as malicious or benign.
- Engineered custom preprocessing scripts to extract features from MobSF static analysis JSON reports, converting raw security data into vectorized formats for model training.
- Optimized Random Forest models using Grid Search algorithms to achieve a classification accuracy of 91-92%.

Spotify Reading Playlist Generator

October 2025 – December 2025

- Engineered a Streamlit web application that integrates Gemini and Spotify APIs to generate curated music playlists based on specific book themes.
- Managed version control and peer code reviews via GitHub ensuring codebase modularity and high-quality documentation.

LEADERSHIP EXPERIENCE

Vice President – Gamma Psi Chapter of Phi Sigma Pi

November 2024 – December 2025

- Directed executive operations and presided over fraternal government meetings.
- Maintained organizational master schedule to coordinate events and deadlines.

Initiation Chair – Gamma Psi Chapter of Phi Sigma Pi

April 2024 – November 2024

- Spearheaded creative strategy and fraternal programming by facilitating brainstorming sessions for committee members.
- Enhanced planning through structured task delegation and communication, resulting in successful new-member events.

SKILLS

Programming & Databases: Python, R, Shell, LaTeX, SQLite, API use

Data Science & Visualization: Machine Learning, Prompt Engineering, Tableau, Power BI, RShiny, Flask

Tools & Automation: GitHub, Microsoft 365 Suite, Google Suite, Power Automate
